Index to Volume 33

Authors and Titles

Abbott, L. K., and Robson, A. D.—
The role of vesicular arbuscular mycorrhizal fungi in agriculture and the selection of fungi for inoculation 389
Infectivity of vesicular arbuscular mycorrhizal fungi in agricultural soils 1049

Allwood, A. J. *See* Anderson, D. L. 541

Anderson, D. L., Sedgley, M., Short, J. R. T., and Allwood, A. J.—
Insect pollination of mango in northern Australia 541

Appleyard, M., Kirby, E. J. M., and Fellowes, G.—
Relationships between the duration of phases in the pre-anthesis life cycle of spring barley 917

Ashby, J. W. *See* Johnstone, G. R. 697

Barrow, N. J.—
Possibility of using caustic residue from bauxite for improving the chemical and physical properties of sandy soils 275

Basford, K. E.—
The use of multidimensional scaling in analysing multi-attribute genotype response across environments 473

Bertchinger, H. *See* Guerrini, V. H. 347

Bird, P. R., Flinn, P. C., Cayley, J. W. D., and Watson, M. J.—
Body composition of live cattle and its prediction from fasted liveweight, tritiated water space and age 375

Bolland, M. D. A., and Bowden, J. W.—
Long-term availability of phosphorus from calcined rock phosphate compared with superphosphate 1061

Boston, R. C. *See* Schneider, K. M. 827

Bowden, J. W. *See* Bolland, M. D. A. 1061

Bowles, J. E. *See* Langlands, J. P. 313, 591

Bray, A. C. *See* Kandylis, K. 585

Brockwell, J., Gault, R. R., Zorin, M., and Roberts, M. J.—
Effects of environmental variables on the competition between inoculum strains and naturalized populations of *Rhizobium trifolii* for nodulation of *Trifolium subterraneum* L. and on rhizobia persistence in the soil 803

Brown, T. H. *See* Judson, G. J. 1073

Butler, K. L. *See* Imrie, B. C. 523

Catchpoole, V. R. *See* Vallis, I. 97

Cayley, J. W. D. *See* Bird, P. R. 375

Chamberlin, R. J., and Wilson, G. L.—
Development of yield in two grain-sorghum hybrids. I. Dry weight and carbon-14 studies 1009

Chan, K. Y. *See* Hodgson, A. S. 109

Charles-Edwards, D. A. *See* Muchow, R. C. 41, 53;
Ludlow, M. M. 187

Christian, K. R. *See* Myers, L. F. 927

Chung, B.—
Growth analysis of poppies (*Papaver somniferum* L.) 233

Coates, D. B. *See* Muchow, R. C. 773

Cochrane, H. *See* Hamblin, A. P. 887

Cocks, P. S., Craig, A. D., and Kenyon, R. V.—
Evolution of subterranean clover in South Australia. II. Change in genetic composition of a mixed population after 19 years' grazing on a commercial farm 679

Cornish, P. S.—
Root development in seedlings of ryegrass (*Lolium perenne* L.) and phalaris (*Phalaris aquatica* L.) sown onto the soil surface 665

Craig, A. D. *See* Cocks, P. S. 679

du Cros, D. L., Wrigley, C. W., and Hare, R. A.—
Prediction of durum-wheat quality from gliadin-protein compositions 429

Cumming, R. B. *See* Siregar, A. P. 857, 865, 877

Davies, H. I. *See* Langlands, J. P. 591

Davis, R. *See* Ludlow, M. M. 187

Delhaize, E., Loneragan, J. F., and Webb, J.—
Enzymic diagnosis of copper deficiency in subterranean clover. II. A simple field test 981
See also Loneragan, J. F. 967

De Marco, D. G. *See* McLachlan, K. D. 1

Dewey, D. W. *See* Judson, G. J. 1073

Dodman, R. L., and Reinke, J. R.—
A selective medium for determining the population of viable conidia of *Cochliobolus sativus* in soil 287

Dolling, C. H. S. *See* Kleemann, D. O. 293

Donald, G. E. *See* Langlands, J. P. 313, 591
Donnelly, J. B. *See* Margan, D. E. 617
Donnelly, J. R., Morley, F. H. W., and McKinney, G. T.—
The productivity of breeding ewes grazing on lucerne or grass and clover pastures on the tablelands of southern Australia. I. Reproduction 1085
Doyle, P. T., Egan, J. K., and Thalen, A. J.—
Parotid saliva of sheep. I. Effects of level of intake and type of roughage 573
See also Egan, J. K. 1099
Dudziński, M. L. *See* Williams, C. K. 743
Dunstone, R. L.—
Jojoba flower buds: effects of preconditioning temperature 649
Duffus, J. E. *See* Johnstone, G. R. 697

Edwards, J. B. *See* Judson, G. J. 1073
Egan, J. K., and Doyle, P. T.—
The effect of stage of maturity in sheep upon intake and digestion of roughage diets 1099
See also Doyle, P. T. 573
El-Shazly, K. *See* Shehata, M. N. 951
Everett, R. W., Taylor, J. F., and Hammond, K.—
Mixed model estimation of age and month of calving adjustment factors for milk and butterfat yields of New South Wales dairy cattle 731

Faichney, G. J. *See* Margan, D. E. 617
Farrell, D. J., *See* Siregar, A. P. 857, 865, 877
Fellowes, G. *See* Appleyard, M. 917
Flinn, P. C. *See* Bird, P. R. 375
Foale, M. A. *See* Muchow, R. C. 773
Ford, B. D. *See* Robertson, J. A. 755

Gardener, C. J.—
Population dynamics and stability of *Stylosanthes hamata* cv. Verano in grazed pastures 63
Garran, J., and Gibbs, A.—
Studies on alfalfa mosaic virus and alfalfa aphids 657
Gault, R. R. *See* Brockwell, J. 803
Gibbs, A. *See* Garran, J. 657
Gilkes, R. J. *See* Harper, R. J. 565
Godwin, I. R., and Williams, V. J.—
Urinary calculi formation in sheep on high wheat grain diets 843
Goyne, P. J., and Hammer, G. L.—
Phenology of sunflower cultivars. II. Controlled-environment studies of temperature and photoperiod effects 251
Goyne, P. J., Hammer, G. L., and Woodruff, D. R.—
I. Classification of responses 243
See also Hammer, G. L. 263
Graham, N. McC., and Searle, T. W.—
Energy and nitrogen utilization for body growth in young sheep from two breeds with differing capacities for wool growth 607
See also Margan, D. E. 617
Grantz, D. A., and Hall, A. E.—
Earliness of an indeterminate crop, *Vigna unguiculata* (L.) Walp., as affected by drought, temperature, and plant density 531
Gray, D. *See* Judson, G. J. 1073
Greber, R. S.—
Maise sterile stunt—a delphacid transmitted rhabdovirus disease affecting some maize genotypes in Australia 13
Gregory, I. P.—
Genetic studies of South Australian Merino sheep. III. Heritabilities of various wool and body traits 355
IV. Genetic, phenotypic and environmental correlations between various wool and body traits 363
Guerrini, V. H., Bertchinger, H., and Koster, N.—
The effects on sheep urinary and plasma electrolytes of 4 weeks' exposure to different ambient temperatures and humidities 347

Hall, A. E. *See* Grantz, D. A. 531
Hamblin, A. P., Tennant, D., and Cochrane, H.—
Tillage and the growth of a wheat crop in a loamy sand 887
Hammer, G. L., Goyne, P. J., and Woodruff, D. R.—
Phenology of sunflower cultivars. III. Models for prediction in field environments 263
See also Goyne, P. J. 243, 251
Hammond, K. *See* Everett, R. W. 731
Hare, R. A. *See* du Cros, D. L. 429
Harper, L. A. *See* Vallis, I. 97
Harper, R. J., Gilkes, R. J., and Robson, A. D.—
Biocrystallization of quartz and calcium phosphates in plants—a re-examination of the evidence 565
Hassan, A. *See* Shehata, M. N. 951

Hay, J. B., and Mills, S. C.—
Chemical changes in the wool wax of adult Merino sheep during prolonged wetting and prior to development of fleece rot 335
The migration of sebum and suint components along wool fibres of Merino sheep 817
Hodgson, A. S.—
The effects of duration, timing and chemical amelioration of short-term waterlogging during furrow irrigation of cotton in a cracking grey clay 1019
Hodgson, A. S., and Chan, K. Y.—
The effect of short-term waterlogging during furrow irrigation of cotton in a cracking grey clay 109
Hunter, R. A., Peter, D. W., Quinn, M. P., and Siebert, B. D.—
Intake of selenium and other nutrients in relation to selenium status and productivity of grazing sheep 637
Hunter, R. A., and Purser, D. B.—
The regulatory effect of pine sawdust (*Pinus pinaster*) on the intake of wheat grain by sheep 303

Imrie, B. C., and Butler, K. L.—
An analysis of variability and genotype × environment interaction in mung bean (*Vigna radiata*) in south-eastern Queensland 523
Irwin, J. A. G., and Langdon, P. W.—
A laboratory prodecure for determining relative levels of field resistance in soybeans to *Phytophthora megasperma* f.sp. *glycinea* 33
See also Rose, J. L. 763

Jenner, L. B. *See* Rose, J. L. 763
Jessop, R. S. *See* Lovett, J. V. 909
Johnstone, G. R., Duffus, J. E., Munro, D., and Ashby, J. W.—
Purification of a Tasmanian isolate of subterranean clover red leaf virus, and its serological interactions with a New Zealand isolate and other luteoviruses 697
Jones, W. O. *See* Steel, J. W. 131
Judson, G. J., Brown, T. H., Gray, D., Dewey, D. W., Edwards, J. B., and McFarlane, J. D.—
Oxidized copper wire particles for copper therapy in sheep 1073

Kandylis, K., and Bray, A. C.—
The loss of volatile sulfur from sheep 585
Kenyon, R. V. *See* Cocks, P. S. 679
Kirby, E. J. M. *See* Appleyard, M. 917
Kirchner, R. J. *See* Myers, L. F. 927
Kleemann, D. O., Dolling, C. H. S., and Ponzoni, R. W.—
Effect of breed of dam and lamb, and of lamb sex on efficiency of conversion of food to lamb and wool in Merino and first-cross Merino ewes 293
Koster, N. *See* Guerrini, V. H. 347

Lahav, E., and Trochoulias, T.—
The effect of temperature on growth and dry matter production of avocado plants 549
Langdon, P. W. *See* Irwin, J. A. G. 33; Rose, J. L. 763
Langlands, J. P., Bowles, J. E., Donald, G. E., and Smith, A. J.—
The nutrition of ruminants grazing native and improved pastures. V. Effects of stocking rate and soil ingestion on the copper and selenium status of grazing sheep 313
Langlands, J. P., Bowles, J. E., Donald, G. E., Smith, A. J., Paull, D. R., and Davies, H. I.—
Deposition of copper, manganese, selenium and zinc in the ovine foetus and associated tissues. 591
Lawn, R. J.—
Response of four grain legumes to water stress in south-eastern Queensland. I. Physiological response mechanisms 481
II. Plant growth and soil water extraction patterns 497
III. Dry matter production, yield and water use efficiency 511
Leaver, D. D. *See* Schneider, K. M. 827
Lee, G. J., McManus, W. R., and Robinson, V. N. E.—
Changes in rumen fluid composition and in the rumen epithelium when wheat is introduced to the diet of sheep: the influence of wheat and hay consumption 321
Leibholz, J.—
Arginine requirements of pigs between 7 and 28 days of age 165
Loneragan, J. F., Delhaize, E., and Webb, J.—
Enzymic diagnosis of copper deficiency in subterranean clover. I. Relationship of ascorbate oxidase activity in leaves to plant copper status 967
See also Delhaize, E. 981; Reuter, D. J. 989, 1001

Lovett, J. V., and Jessop, R. S.—
Effects of residues of crop plants on germination and early growth of wheat 909
Ludlow, M. M., Stobbs, T. H., Davis, R., and Charles-Edwards, D. A.—
Effect of sward structure of two tropical grasses with contrasting canopies on light distribution, net photosynthesis and size of bite harvested by grazing cattle 187

McFarlane, J. D. *See* Judson, G. J. 1073
McKeon, G. M., and Mott, J. J.—
The effect of temperature on the field softening of hard seed of *Stylosanthes humilis* and *S. hamata* in a dry monsoonal climate 75
McKinney, G. T. *See* Donnelly, J. R. 1085
McLachlan, K. D.—
Leaf acid phosphatase activity and the phosphorus status of field-grown wheat 453
McLachlan, K. D., and De Marco, D. G.—
Acid phosphatase activity of intact roots and phosphorus nutrition in plants. III. Its relation to phosphorus garnering by wheat and a comparison with leaf activity as a measure of phosphorus status 1
McManus, W. R. *See* Lee, G. J. 321
Malouf, N. M., and Walker, D. M.—
Milk replacers containing a soybean protein concentrate for preruminant lambs: interrelationships between methionine, cystine and choline 117
Margan, D. E., Faichney, G. J., Graham, N. McC., and Donnelly, J. B.—
Digestion of a ground and pelleted diet in the stomach and intestines of young sheep from two breeds 617
Mayer, R. J. *See* Rees, R. G. 899
Mills, S. C. *See* Hay, J. B. 335, 817
Minson, D. J. *See* Rees, M. C. 629
Morgan, J. H. L. *See* Sully, R. J. 721
Morley, F. H. W. *See* Donnelly, J. R. 1085
Morris, C. A. *See* Robertson, J. A. 755
Moss, R., Randall, P. J., and Wrigley, C. W.—
A simple test to detect sulfur deficiency in wheat 443
Mott, J. J.—
Fire and survival of *Stylosanthes* spp. in the dry savanna woodlands of the Northern Territory 203
See also McKeon, G. M. 75
Muchow, R. C., and Charles-Edwards, D. A.—
An analysis of the growth of mung beans at a range of plant densities in tropical Australia. I. Dry matter production 41
II. Seed production 53
Muchow, R. C., Coates, D. B., Wilson, G. L., and Foale, M. A.—
Growth and productivity of irrigated *Sorghum bicolor* (L. Moench) in northern Australia. I. Plant density and arrangement effects on light interception and distribution, and grain yield, in the hybrid Texas 610SR in low and medium latitudes 773
Munro, D. *See* Johnstone, G. R. 697
Myers, L. F., Christian, K. R., and Kirchner, R. J.—
Flowering responses of 48 lines of oilseed rape (*Brassica* spp.) to vernalization and daylength 927

Oram, R. N.—
Genetics of total seed yield and its components in *Phalaris aquatica* L. 465

Pascoe, L.—
Measurement of fleece wettability in sheep and its relationship to susceptibility to fleece rot and blowfly strike 141
Paull, D. R. *See* Langlands, J. P. 591
Peter, D. W. *See* Hunter, R. A. 637
Pitakserikul, S. *See* Wills, R. B. H. 1029
Plaskett, D. *See* Reuter, D. J. 989, 1001
Platz, G. J. *See* Rees, R. G. 899
Ponzoni, R. W., and Walker, S. K.—
The association between lambing status and future reproductive performance of ewes grazing oestrogenic pastures 711
See also Kleemann, D. O. 293
Porter, N. G.—
Interaction between lateral branch growth and pod set in primary inflorescences of lupin 957
Prioul, J.-L., and Silsbury, J. H.—
A physiological analysis of the effect of sowing density on the growth rate of subterranean clover 213
Puckridge, D. W. *See* Soetono 171
Purser, D. B. *See* Hunter, R. A. 303

Quinn, M. P. *See* Hunter, R. A. 637

Randall, P. J. *See* Moss, R. 443
Rees, M. C., and Minson, D. J.—
Intake, digestibility and rumen characteristics of sheep given grass fertilized with phosphorus 629

Rees, R. G., Platz, G. J., and Mayer, R. J.—
Yield losses in wheat from yellow spot: comparison of estimates derived from single tillers and plots 899
Reinke, J. R. *See* Dodman, R. L. 287
Reuter, D. J., Loneragan, J. F., Robson, A. D., and Plaskett, D.—
Zinc in subterranean clover (*Trifolium subterraneum* L. cv. Seaton Park).
I. Effects of zinc supply on distribution of zinc and dry weight among plants 989
II. Effects of phosphorus supply on the relationship between zinc concentrations in plant parts and yield 1001
Roberts M. J. *See* Brockwell, J. 803
Robertson, J. A., Ford, B. D., and Morris, C. A.—
Liveweight changes and carcass measurements in buffalo (*Bubalus bubalis*) and Brahman × Northern Territory Shorthorn (*Bos indicus* × *B. taurus*) steers up to 4 years of age grazing on improved pastures 755
Robinson, P. J. *See* Wrigley, C. W. 409, 419
Robinson, V. N. E. *See* Lee, G. J. 321
Robson, A. D. *See* Abbott, L. K. 389, 1049; Harper, R. J. 565; Reuter, D. J. 989, 1001
Rose, J. L., Irwin, J. A. G., Ryley, M. J., Langdon, P. W., and Jenner, L. B.—
Reaction of soybean cultivars to races of *Phytophthora megasperma* f.sp. *glycinea* present in Queensland 763
Rowe, B. A.—
A relation between wool production per animal and annual pasture dry matter production per animal 705
Ryley, M. J. *See* Rose, J. L. 763

Santos, R. B., and Sutton, B. G.—
Effect of defoliation on Virginia bunch peanuts at Camden, N.S.W. 1037
Schneider, K. M., Boston, R. C., Leaver, D. D.—
The metabolism of phosphorus and calcium in sheep during intravenous infusion of phosphorus 827
Scott, K. J. *See* Wills, R. B. H. 1029
Searle, T. W. *See* Graham, N. McC. 607
Sedgley, M. *See* Anderson, D. L. 541
Shehata, M. N., Hassan, A., and El-Shazly, K.—
Identification of the oestrogenic isoflavones in fresh and fermented berseem clover (*Trifolium alexandrinum*) 951
Short, J. R. T. *See* Anderson, D. L. 541
Siebert, B. D. *See* Hunter, R. A. 637
Silcock, R. G., and Smith, F. T.—
Seed coating and localized application of phosphate for improving seedling growth of grasses on acid, sandy red earths 785
Silsbury, J. H. *See* Prioul, J.-L. 213
Sinclair, J. B. *See* Yeh, C. C. 25
Siregar, A. P., Cumming, R. B., and Farrell, D. J.—
The nutrition of meat-type ducks.
I. The effects of dietary protein in isoenergetic diets on biological performance 857
II. The effects of variation in the energy and protein contents of diets on biological performance and carcass characteristics 865
III. The effects of fibre on biological performance and carcass characteristics 877
Smith, A. J. *See* Langlands, J. P. 313, 591
Smith, F. T. *See* Silcock, R. G. 785
Smith, P. R., and Sward, R. J.—
Crop loss assessment studies on the effects of barley yellow dwarf virus in wheat in Victoria 179
Soetono, and Puckridge, D. W.—
The effect of density and plant arrangement on the performance of individual plants in barley and wheat crops 171
Stace, H. M.—
Breeding systems in *Stylosanthes*.
I. Observations of outcrossing in *S. scabra* at an alcohol dehydrogenase locus 87
Steel, J. W., Jones, W. O., and Symons, L. E. A.—
Effects of a concurrent infection of *Trichostrongylus colubriformis* on the productivity and physiological and metabolic responses of lambs infected with *Ostertagia circumcincta* 131
Steer, B. T.—
The effect of growth temperature on dry weight and carbohydrate content of onion (*Allium cepa* L. cv. Creamgold) bulbs 559
Stobbs, T. H. *See* Ludlow, M. M. 187
Sully, R. J., and Morgan, J. H. L.—
The influence of feeding level and type of feed on the carcasses of steers 721
Sutton, B. G. *See* Santos, R. B. 1037
Sward, R. J. *See* Smith, P. R. 179
Symons, L. E. A. *See* Steel, J. W. 131

Taylor, D. G.—
A comparative study of Hereford and Friesian steers. I. Growth, feed conversion and body dimensions 149
II. Carcass characteristics and meat quality 157
Taylor, J. F. *See* Everett, R. W. 731
Tennant, D. *See* Hamblin, A. P. 887
Thalen, A. J. *See* Doyle, P. T. 573
Trochoulias, T. *See* Lahav, E. 549
Tschanz, A. T. *See* Yeh, C. C. 25

Vallis, I., Harper, L. A., Catchpoole, V. R., and Weier, K. L.—
Volatilization of ammonia from urine patches in a subtropical pasture 97

Walker, D. M. *See* Malouf, N. M. 117
Walker, S. K. *See* Ponzoni, R. W. 711
Watson, M. J. *See* Bird, P. R. 375
Watt, L. A.—
Germination characteristics of several grass species as affected by limiting water potentials imposed through a cracking black clay soil 223
Webb, J. *See* Delhaize, E. 981; Loneragan, J. F. 967
Weier, K. L. *See* Vallis, I. 97
Williams, C. K., and Dudziński, M. L.—
Ingestion rates, food utilization and turnover of water and sodium in grazing buffaloes, *Bubalus bubalis*, and cattle, *Bos taurus* × *B. indicus*, in monsoonal Northern Territory 743
Williams, V. J. *See* Godwin, I. R. 843
Williams, W. T. *See* Wrigley, C. W. 409, 419
Wills, R. B. H., Pitakserikul, S., Scott, K. J.—
Effects of pre-storage in low oxygen or high carbon dioxide concentrations on delaying the ripening of bananas 1029
Wilson, G. L. *See* Chamberlin, R. J. 1009; Muchow, R. C. 773
Wilson, J. R., and Wong, C. C.—
Effects of shade on some factors influencing nutritive quality of green panic and Siratro pastures 937
Wong, C. C. *See* Wilson, J. R. 937
Woodruff, D. R. *See* Goyne, P. J. 243; Hammer, G. L. 263
Wrigley, C. W., Robinson, P. J., and Williams, W. T.—
Associations between individual gliadin proteins and quality, agronomic and morphological attributes of wheat cultivars 409
Relationships between Australian wheats on the basis of pedigree, grain protein composition, grain quality and morphology 419
See also du Cros, D. L. 429; Moss, R. 443

Yeh, C. C., Sinclair, J. B., and Tschanz, A. T.—
Phakopsora pachyrhizi: uredial development, uredospore production and factors affecting teliospore formation on soybeans 25

Zorin, M. *See* Brockwell, J. 803

Printed by CSIRO, Melbourne
